"Let me help you with time-tested real estate investment strategies."

Without Paying Capital Gain Taxes!

I focus on showing real estate investors how to sell an investment property and use the proceeds to purchase a dream property while deferring capital gain taxes. By utilizing one of the last great tax planning strategies for investment real estate owners, the **IRC §1031 tax deferred exchange**, it is possible to acquire a desirable rental property that potentially could be converted in the future from investment use to your dream home.

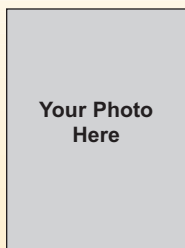

If you would like more information on how the **IRC §1031 tax deferred exchange** works and how you too can use it to convert your investment property into your dream property, **Let's Talk!**

I am happy to discuss your options or send you complimentary information about the exchange process.
